Notes to the Unaudited Condensed Financial Statements

For The Nine Months Ended September 30, 2016

(Stated in Canadian Dollars)

1. Nature of operations

The Company was incorporated on March 26, 1987 under the provisions of the Company Act of British Columbia and was transitioned to the Business Corporations Act (BC) on September 30, 2005. The Company's head office is located at suite# 1001, 409 Granville Street, Vancouver, BC, V6C 1T2, Canada. The Company was named "G4G Resources Ltd." since October 15, 2007, and the common shares were traded on the TSX Venture Exchange under its symbol "GXG". The Company is classified as a 'Junior Natural Resource-Mining' company.

The Company changed its name again to "G4G Capital Corp." on January 23, 2015 and the common shares commenced trading on the TSX Venture Exchange under its new symbol "GGC". The Company continues to be classified as a 'Junior Natural Resource-Mining' company.

The Company is in the business of acquiring and exploring mineral properties in the Yukon, Canada and other locations. There has been no determination whether properties held contain ore reserves, which are economically recoverable. The recoverability of valuations assigned to mineral properties is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the properties, the ability to obtain the necessary financing to complete development, and future profitable production or proceeds from disposition.

At September 30, 2016, the Company had not yet achieved profitable operations, had an accumulated deficit of \$11,092,389 since inception and expects to incur further losses in the development of its business. However, the Company had working capital surplus of \$269,029 as at September 30, 2016. The Company's ability to continue as a going concern is dependent upon the discovery of economically recoverable reserves, its ability to obtain the necessary financing to develop the property and to meet its ongoing levels of corporate overhead, keep its property in good standing and discharge its liabilities as they come due. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company.

2. Basis of preparation – Statement of Compliance

These unaudited condensed interim financial statements have been prepared in accordance with interim standards under International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting. The unaudited condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these unaudited condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future period.

3. Significant accounting policies – Basis of Presentation

Since the unaudited condensed interim financial statements do not include all disclosures required by the International Financial Reporting Standards (“IFRS”) for annual financial statements, they should be read in conjunction with the Company’s audited annual financial statements for the year ended December 31, 2015.

The policies set out were consistently applied to all the periods presented unless otherwise noted below. The preparation of interim financial statements in accordance with IAS 1 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies.

These unaudited condensed financial statements were approved and authorized for issue by the board of directors of the Company on November 28, 2016.

All amounts are expressed in Canadian dollars, which is also the functional currency of the Company.

4. Accounting standards issued but not yet effective

IFRS 9 – Financial Instruments: classification and measurement

The IASB issued IFRS 9, Financial Instruments, which will replace IAS 39, Financial Instrument: Recognition and Measurements, on November 12, 2009. The new standard provides guidance on the classification and measurement of financial asset and financial liabilities. In November 2013, the IASB amended IFRS 9, IAS 39 and IFRS 7, Financial Instruments: Disclosures, to include the new hedge accounting requirements. The new amendments come into effect January 1, 2018. The company is assessing the impact of the adoption of these standards.

IFRS 16 - Leases – In January 2016 the International Accounting Standards Board issued IFRS 16, Leases, which specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Consistent with its predecessor, IAS 17 the new lease standard continues to require lessors to classify leases as operating or finance. IFRS 16 is to be applied retrospectively for annual periods beginning on or after January 1, 2019. Earlier application is permitted if IFRS 15 Revenue from contract with customers has also been applied.

5. Mineral property costs

On February 2, 2015, the Company entered into a definitive earn-in option and joint agreement (“Option”) with Ryan Gold Corp (“Ryan”). The agreement provides that the Company can earn a 60% right, title and interest in and to the ARM claims, consisting of 544 contiguous mining claims located in the Whitehorse Mining District east of Kluane Lake’s Talbot Arm, Yukon (“Property”).

In order for the Company to earn in the Option, the Company must:

(i) issue an aggregate of 400,000 Post-Consolidation Shares to Ryan upon receipt of TSX Venture Exchange (“TSXV”) approval of the Option. This step was completed on July 8, 2015, shares valued at a fair value of \$20,000 (issued);

(ii) make total cash payments of \$375,000 to Ryan as set forth below:

- CDN\$50,000 on the second anniversary of the date of approval by TSXV (the “Effective Date”, being July 10, 2015);
- CDN\$75,000 on the third anniversary of the Effective Date;
- CDN\$100,000 on the fourth anniversary of the Effective Date; and
- CDN\$150,000 on the fifth anniversary of the Effective Date; and

iii) incur total expenditures on the Property in the aggregate amount of CDN\$600,000 over a five year period, of which CDN\$50,000 must be incurred within the first year from the Effective Date.

Oban Mining Corporation (“Oban”) acquired Ryan Gold on August 25, 2015. On Feb 1, 2016, IDM Mining Ltd. (“IDM”) acquired 100% of Oban's Yukon properties (including the ARM Property formerly held by Ryan Gold). Accordingly, the option agreement going forward will be between the Company and IDM. The company is currently negotiating the option payments and expenditure requirements with the optionor.

Property bonds

Property bonds are cash deposits pledged to the Province of B.C. The bonds mature and roll over every year until the Company is released from its property bonds.

6. Related party transactions

During the nine months ended September 30, 2016, 2,370,000 options to purchase common shares of the Company were granted to directors, officers, employees and consultants at an exercise price of \$0.40 per share, expiring on September 27, 2021.

\$44,449 is owing to a company which a director and officer of the Company is an officer.

All related party transactions are in the normal course of operations and have been measured at the agreed to amounts, which is the amount of consideration established and agreed to by the related parties.

7. Share Capital

Authorized: An unlimited number of common shares without par value.

[a] Commitment to issue common shares to three former directors

The Company is committed to issuing a total of 50,000 common shares to three former directors upon any Alberni and Nanaimo Mining District's mineral property previously owned by the Company being placed into commercial production. This would reimburse these former directors for transferring 50,000 shares owned by them to a third party to satisfy a debt obligation of the Company.

[b] On January 23, 2015, the Company completed the consolidation of its common share capital on a ten (10) old for one (1) new basis and had 3,236,825 common shares outstanding at this time. All historical share amounts have been accordingly restated.

[c] On July 8, 2015, the company closed a placement of 9.5 million shares at a price of five cents per share for gross proceeds of \$475,000.

[d] On July 8, 2015, the company issued 400,000 shares to Ryan Gold Corp., the optionor of the ARM claims.

[e] On July 8, 2015, the Company issued 3,989,160 shares at a price of five cents per share to a director of the company in settlement of debts in the amount of \$199,458.

[f] On July 22, 2015, the Company issued 6,600,000 shares at a price of five cents per share in settlement of debts in the amount of \$330,000.

8. Stock options

The Company has a stock option plan whereby it may grant options to its directors, officers and employees at exercise prices determined by the Board. On September 27, 2016 the company issued a total of 2,370,000 options to purchase common shares of the Company and granted them to directors, officers, employees and consultants at an exercise price of \$0.40 per share, expiring on September 27, 2021. 25% of these shares vest one year after the date of grant and 25% grant on each of the following one year anniversaries.

The following table summarizes the continuity of the Company's stock options:

Company's stock options	Number of shares	Weighted average exercise price \$
Outstanding, September 30, 2016	2,370,000	0.40

The fair value of these options was estimated on the date of measurement. Under Black-Scholes, the options were valued at \$960,343 using the following assumptions at the measurement date:

	September 27, 2016
Number of Options	2,730,000
Exercise price (\$)	0.40
Market price (\$)	0.40
Expected Volatility (%)*	138
Risk-free interest rate (%)	0.99
Expected life (years)	5.00
Dividend yield (%)	-
Fair value of warrants	\$960,343

* Based on historical Volatility.

9. Commitments and projects development

The Company entered into a definitive option agreement with Ryan Gold Corp to acquire an option to earn an undivided 60% interest in ARM property which consists of 544 contiguous mining claims located in the Whitehorse Mining District east of Kluane Lake's Talbot Arm, Yukon (The option agreement going forward will be between the Company and IDM, See Note 5).

(Stated in Canadian Dollars)

10. Segmented information

The Company conducts all of its operations in Canada in one industry segment being the acquisition, exploration and development of resource properties.

11. Capital management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the nine months ended September 30, 2016.

12. Financial instruments

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's financial instruments consist of cash and cash equivalents, marketable securities, property bonds held in form of GICs, due to related parties, note payable and accounts payable and accrued liabilities.

Cash and cash equivalents, marketable securities, property bonds in form of GICs are designated as fair value through profit or loss and therefore carried at fair value, with the unrealized gain or loss recorded in the statement of operation. Due to related parties, note payable, accounts payable and accrued liabilities are classified as other financial liabilities, which are measured at amortized cost.

The fair values of the Company's cash and cash equivalent, property bonds held in form of GICs, loan payable, accounts payables and accrued liabilities and due to related parties approximate their carrying values due to the short-term maturity of these instruments.

G4G Capital Corp. (Formerly G4G Resources Ltd.)

Notes to the Unaudited Condensed Financial Statements

For The Nine Months Ended September 30, 2016

(Stated in Canadian Dollars)

Fair Value Measurement

The Company classified the fair value of the financial instruments according to the following fair value hierarchy based on the amount of observable inputs used to value the instruments:

- Level 1 – quoted prices in active markets for identical assets or liabilities.
- Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e.: as prices) or indirectly (i.e.: derived from prices).
- Level 3 – inputs for the asset or liability that are not based on observable market data.

At September 30, 2016, the levels in the fair value hierarchy into which the Company's financial instruments measured and recognized in the balance sheet at fair value are categorized are as follows:

	Level 1
Cash and cash equivalents	\$ 337,743
Property bonds in GICs	\$ 20,148

Financial Instrument Risk Exposure

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management processes.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest risk and commodity price risk.

(a) Credit risk

The Company's cash and cash equivalents are held in a Canadian financial institution. The Company does not have any asset-backed commercial paper in its cash and cash equivalents.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure.

Accounts payable and accrued liabilities are due within the current operating period.

(c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The risk that the Company will realize a loss as a result of a decline in the fair value of the cash and cash equivalents is limited because they are generally held to maturity.

(d) Commodity price risk

The ability of the Company to develop its mineral properties and the future profitability of the Company are directly related to the market price of its related commodity. The Company has not hedged any of its future related commodity sales. The Company closely monitors the price of its related commodity and its related cost of production to determine the appropriate course of action to be taken by the Company.

13. Note payable

During the year ended December 31, 2011, the Company entered into a loan agreement for a loan of \$200,000 payable, bearing interest of 2% per month with a maturity date of June 21, 2011. The Company repaid \$100,000 during the year ended December 31, 2011. On the maturity date of June 21, 2011, the loan became due on demand. In the year ended December 31, 2013 and 2014, the Company received additional loans of \$20,825 and \$39,360 respectively, bearing interest of 2% per month and due on demand. For the year ended December 31, 2014, \$63,089 (2013- \$42,462) was charged to loan interest expense and a total interest of \$156,006 (2013 - \$92,917) was accrued as at December 31, 2014. During the year ended December 31, 2015, \$330,000 of the amount owing was settled via the issuance of equity at a price of \$0.05 per share. The remaining balance outstanding of \$44,449 is owing to a company which a director and officer of the Company is an officer.

14. Contingency

As of September 30, 2016, there was a claim filed against the Company together with others people seeking \$207,500 compensation for defamation damages (23% (\$47,725) of which is attributed to the Company). The claim is ongoing and the Company believes that the claim will be dismissed due to the fact the Company or any others people associated with the Company have not made or have been party to any such claim. Any settlement, if any, will be reflected as a charge to deficit in the year incurred. No provision for possible loss has been included in these financial statements.

15. Subsequent Events

On October 28, 2016 the company announced the option (the "Option") to purchase 21 properties, comprising approximately 12,301 quartz claims (the "Properties"), located in the White Gold District of the Yukon Territory, from Shawn Ryan and Wildwood Exploration Inc. (the "Vendors") has become effective.

The 12,301 quartz claims, covering approximately 249,000 Ha (2,490 Square Kilometers), are grouped in 6 project areas covering various prospective geological terrain in the White Gold District. The Properties represent all of Mr. Ryan's precious metal interests located in the White Gold District of the Yukon Territory that are not in a current joint venture with third parties. The Properties range from grass roots targets, where ridge and spur soil geochemical sampling has identified targets for more detailed follow up exploration, to more advanced exploration targets where grid soil geochemical sampling, mapping, geophysical surveys and very limited drilling campaigns have been conducted. In total over \$25 million has been previously spent exploring the 21 Properties.

Description of Option

In order for G4G to exercise the Option it will:

Issue 7 million common shares of G4G ("Common Shares") to the Vendors of which 1 million have been issued, and 6 million are issuable within 18 months; and pay to the Vendors cash consideration of C\$3.5 million payable in five installments, C\$500,000 (which amount has been paid), C\$500,000 in 12 months, C\$500,000 in 24 months, C\$1 million in 36 months and C\$1 million in 48 months.

G4G and the Vendors have entered into a definitive option agreement (the "Option Agreement") dated October 27, 2016 (the "Effective Date") which supersedes and replaces the letter agreement which was originally signed to set forth the basic terms and conditions of the Option. G4G has also entered into enter

into a consulting agreement with Shawn Ryan pursuant to which, Mr. Ryan will be appointed Chief Technical Advisor of G4G for a five year period from November 1, 2016.

The Private Placement

In connection with the Option, G4G also announces the closing of a non-brokered private placement (the "Private Placement") for gross proceeds of C\$3,000,000 through the issuance of units ("Units") at a price of C\$0.20 per Unit. Each Unit consists of one Common Share and one share purchase warrant (a "Warrant"), with each Warrant entitling the holder to acquire one additional Common Share at an exercise price of C\$0.27 for a Common Share for a period of three years from the Effective Date.

Proceeds from the Private Placement will be used to partially finance the exercise of the Option, to finance the exploration of the Properties, and for general corporate purposes. All securities issued under the Private Placement will be subject to a hold period of four months and one day from the date of issuance of the securities. In addition, the Common Shares comprising, in part, the Units, and the Common Shares issuable upon exercise of the Warrants will be subject to a pooling arrangement. The Common Shares will be released from the pooling arrangement in four equal tranches of 25%, with the first tranche being released on the date that is nine months from the date of issuance of the Units, and the second, third and fourth tranches being released on the dates that are 12 months, 15 months and 18 months, respectively, from the date of issuance of the Units.

Following the issuance of Common Shares pursuant to the Option (to date) and the Private Placement, G4G has 39,725,986 Common Shares issued and outstanding.
